| Dave Kaplan , Founder V2Green | Kim Zentz , SIRTI |

Pivotal Leaders is a business network created to identify and recognize the top prospective business leaders in the Northwest and to support them in furthering the region's leadership potential in clean technology sectors. The idea for Pivotal Leaders emerged as the founders of Pivotal Investments discovered a need not only for investment capital focused on the sustainable economy, but also human capital. The network is designed to accelerate the Northwest's focus on building its future economy on its strengths of innovation and sustainable use of resources. The Pivotal Leaders were selected using a community-nominated and peer-selected process. A new list of Pivotal Leaders will be selected each year; for more details about what the network offers, please go to our website: pivotal-leaders.com
